

# MANAGING Remote Employees

**VIRTUAL TRAINING**

With the rise of advanced technology, more employees are working from home, but just because they're out of sight doesn't mean they should be out of mind.

As nearly a quarter of U.S. workers telecommute at least part-time, remote work has become a sought-after perk and a key tool for attracting top talent in today's competitive job market. But how do you determine if remote work is the right fit for your company and employees? Explore best practices, overcome common concerns, and learn how to successfully manage and support remote teams to drive success and engagement.

This virtual event will be hosted live and we encourage attendance to receive the full interactive experience of the course.
